Joseph P. Edson, Plaintiff's Attorneys, m;19 \$5,25

Scrodula, or King's Evil. a constituional disease, a corruptio i of the blood y which this fluid becomes vitiated, weak and or. Being in the circulation, it pervades the hol-body, and may burst out in disease in that what it. No ergan is free from its attack, wor there one which it may not destroy. The ser du us taint is easied by merenrial discuss. low living sordered or unhealthy food, impure air, filth and ithy habits, the depressing vices, and, above all, with venereal infection. Whetever be its origin, is hereditary in the Constitution, descending from parents to children, unto the third and surth generation;" indeed, it seems to be the red with who says, "I will visit the iniquities of the their upon their children."

Its effects commence by deposition from the local of correct or nearest matter which is the ous taint is caused by merencial diseases, low living

Its effects commence by deposition from the slood of corrupt or u'cerous matter, which, in the angs, liver, and internal argans, is termed tuberles; in the glands, swelfings; and, on the afface, cruptions or seres. This foul corruption, which genders in the blood, dopresses the energies of lie, so that acrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by diserders which, although not acrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which declinates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

Ayers's Compound Extract of Sarsaparilla. the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this four disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofnia, but also these these effections which are from its such as the consequences. of for the cure of not only Scrofnia, but also those ther affections which arise from it, such as Euretive and Sein Dineases, St. Anthony's Fine, Rose, or Environment, Pingles, Puntles, Baotchus, Blains, and Bolles, Tunous, Titter, Baotchus, Resumatism, Vihilatic and Menuurial Diseases, Dropsy, Designia and Menuurial Diseases, Dropsy, Designia and Menuurial Complaints arising from the property of the property o inity and, indeed, all Complaints among room furnation on impure Bloom. The popular belief a "impurity of the blood" is founded in truth, for rofula is a degeneration of the blood. The particular purpose and virtue of this Sare-varilla is to curify and regenerate this vital [], without hich sound health is impossible in contaminated

AYRES'S AGUE CURE.

FOR THE SPEEDY CURE OF Intermittent Fever, or Fever and Ague, Re-

we are enabled here to oner the community a medy which, while it cures the above complaints ith certainty, is still perfectly barmless in any matity. Such a remedy is invaluable in districts here these afflicting disorders provail. This Cura' expels the miasmatic poison of Frum an Ague from the system, and prevents the deslopments of the disease, if taken on the first approach of its prematical variations. slopments of the disease, if taken on the first apreach of its premonitory symptoms. It is not onthe best remedy ever yet discovered for this clascomplaints, but also the cheapest. The large
gantity we supply for a dollar brings it within
he trach of everybody; and in bilious districts,
here Feven and Ague prevails, everybody should
ave it and use it freely, both for cure and protecion. A great supernority of this remedy over any
ther ever discovered for the speedy and certain
are of Intermittents is that it contains no Quinine
r Mineral, consequently it produces no gainism or r Mineral, consequently it produces no quini-m or spurious effects whatever upon the constitution.— hose cured by it are left as healthy as if they had

bose cured by it are left as healthy as if they had sever had the disease.

Fever and Ague is not alone the consequence of the missmatic poison. A great variety of disordreas arise from its irritation; among which are Neuralgia, Eheamatism, Good, Headache, Bliadness, Toothache, Earache, Calarrh, Ashma, Palgitation, Painful Affection of the Spleen, Hysterics, Pain in the Boncels, Colic, Paraigns and Derungement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Curs." expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants, or persons travelling or temporarily residing in the unlavious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affords.
